

Camp Equipment Return Check List

Tents

- Dry tent thoroughly, put up or spread out (make sure zippers are dry before rolling)
- Dry fly thoroughly
- Dry tent bag thoroughly
- Dry tent poles and pole bag
- Sweep inside of tent AND outside of tent
- When dry, open door of tent, spread fly over tent and fold so tent is same length as poles, roll tent tightly around the poles (it may be necessary to roll once, unroll, then roll again to get it the air out and the tent small enough to fit into tent bag)
- Report any damage of equipment

Ground sheets and tarps

- Dry and clean tarps thoroughly on both sides
- Sweep off any sand or dirt
- Fold neatly

Camp Stoves

- wash inside of stove with SOS, or cleanser to remove burned on grease. Be careful not to get soap in the burners
- wash the lid sides and back of lid to remove grease splatters
- wash outside of stove
- ensure grate is clean
- ensure stove is dry before closing
- ensure connector is in the stove before closing
- ensure camp stove bag is clean and dry
- return to camp stove bag
- report any damage or problems

Patrol Boxes

- remove cutting board and wipe clean
- remove all equipment from box and wash in warm, soapy water, rinse well and hand dry
- return dry equipment to box (it all fits –adjust until the lid fits securely)
- Report any missing or damaged equipment
